There is a simple reason why Crestron is the undisputed leader of the home automation industry – we deliver the best user experience by far. Crestron is the one and only company that designs, manufactures and supports the full spectrum of home automation products and solutions to ensure unparalleled performance and reliability for you and your family.

All of the Crestron technology in your home is built to work together, providing an amazingly personalized and worry-free system that is easy for you to use, easy to modify and upgrade, and easy to maintain. Systems that mix and match many different technologies from many different companies are prone to inconsistent and unreliable performance. What truly elevates Crestron systems above every other brand is that there are absolutely no weak points anywhere.

Our mission to provide you with the best possible user experience is at the heart of everything we design, including:

- · Lighting control
- Motorized shades and drapery
- Whole-home audio
- · Home theater and video distribution
- Touch screens and remotes
- Mobile control
- Thermostats and sensors
- Security
- and much more

Explore the following pages for inspiration to create your perfect Crestron Home!

Wall-mount 10" Touch Screen

#### **Touch Screens**

Control your environment with beautifully designed, easy to use touch screens – control lighting, adjust the temperature, put on your favorite track all at the tap of a button.

#### Audio

Crestron makes entertaining truly effortless. Set the mood for the party with one touch. Want different music playing in the kitchen than in the dining area? It's easy with Crestron in your home.

## **Lighting Control**

Once the day's done, set the perfect scene for a family dinner or to snuggle up for a movie, as the screen drops, the lights dim and you settle in for a perfect evening.

### Security

Keep a closer eye on your home. Crestron gives you the freedom to control your security and monitor cameras remotely, promising ultimate peace of mind.

## Remotes

Communicate, control, entertain, play – at the touch of a button you have the ultimate in home control.

#### Video

Crestron takes your viewing experience to a whole new level. Whether you're watching your favorite show on cable TV, streaming a blockbuster movie, or playing a cutting- edge game in 4K Ultra HD, one touch ensures the screen you're viewing is optimized for whatever content you choose.

#### Shades

Crestron motorized shades and drapery systems transform any room into a more spectacular space. Our stunning designer fabrics, elegant hardware, and world-class technology ensure you find the perfect shading solution for all the windows in your home.

### Climate

Set the perfect temperature, always. If it's cold outside, your home will adjust perfectly to keep you warm, or if it's too hot set the climate to cool. Intuitive, sophisticated climate control for every season.

Crestron technology blends artfully into the background, but it's always ready to respond to your needs. You can dim the lights, lower your gorgeous shades and turn up the music with your Crestron TSR-302 handheld remote, or take command of your system with your voice using Amazon Alexa. We take voice control to an awe-

inspiring new level no other company can match; easily activate pre-set scenes, adjust settings to specific levels, or say more general commands like "I'm cold" or "It's too dark" to have your Crestron system raise the temperature or turn up the lights. Whatever you need, just say the word with Crestron.

## **Elegant Dining**

Set the perfect scene for a perfect meal

Just as fresh flowers and fine linen add beauty to the table, Crestron enriches your dining experience with fine-tuned control of lighting, shades and music. A Crestron designer keypad or touch screen is all you need to create the perfect ambiance for any occasion, whether it's an intimate dinner for two or a festive family celebration. Thanks to convenient pre-set scenes, such as "Family Dinner," you can even set the mood with a single tap. Because Crestron makes all of the components in your system, there's never any delay waiting for controls to respond - your lights dim instantly, shades adjust silently, and your favorite artist starts playing through our high-performance speakers. All that's left is to sit down and enjoy your meal with family and friends.

Cameo® Flush Mount Keypad with Ascent® Faceplate (Actual Size)

Crestron simplifies home theater control to make your movie night look, feel, and sound like a starstudded world premier. Whether it's adjusting the best Crestron speakers, viewing the highest definition movie content, or choosing to watch 4 football games at once, our end-to-end technology

provides an easy and exhilarating experience for everyone. While lesser theater systems combine products from multiple manufacturers and require a Ph.D. to operate, with Crestron you can immerse yourself in gorgeous movies, exciting sports, or cool gaming with just one touch.

## **Mobile Control**

Always at your command wherever you happen to be

Keep your finger on the pulse of your main residence and your other properties or marine vessels with the one and only Crestron app. Turn up the heat before you arrive home on a chilly night or let in a guest to your beach house while sitting in your office. You can check security cameras, turn on sprinklers, adjust the lights and shades and much more. Your Crestron systems are always at your command wherever you happen to be.

## Intuitive Control

From our sleek and brilliant touch screens that give you instant control of virtually everything in your home, to stylish handheld remotes for your TV(s), lights, shades, and music, there's an elegant Crestron control solution for every space.

# **Exceptional AV** Crestron engineers unparalleled audio and video technology for home theaters, media rooms, living rooms and every space inside and out. Our legendary DigitalMedia™ platform ensures a spectacular 4K viewing experience on every screen; our multiwindow processors allow you to watch 4 channels (or more) simultaneously. Add in our award-winning Sonnex® audio system and precision-crafted speakers and you are ready to enjoy the ultimate listening and entertainment experience. ## **Engaging Lighting**

Thoughtful lighting design makes gorgeous interiors even more rich and nuanced. Crestron combines proprietary dimming and color-tuning technologies to give you the ultimate lighting control options for every space inside and outside your home. While other systems may limit you to manual up/down dimming, our lighting controls are easily combined into sophisticated one-touch scenes that simultaneously adjust lights, shades, music, thermostats, and other Crestron components to your desired settings. Best of all, Crestron offers the most options to control your lights including designer keypads, touch screens, and handheld remotes, from your mobile devices, or with your voice.

5" Portrait Touch Screen

## Beautiful Shades of Luxury

Crestron motorized shades and drapery systems transform any room into a more spectacular space. Our stunning designer fabrics, elegant hardware, and world-class technology ensure you find the perfect shading solution for every space in your home. We can even make shades that complement your design scheme perfectly with our exclusive Color Match service for shades. On top of all that, our limited lifetime warranty ensures your beautiful Crestron shades work flawlessly for as long as you own your home.

Crestron is the only company that offers you unlimited customization, giving you total freedom to personalize every space. It starts by offering the widest range of design choices. Whether it's our exclusive Color Match service that customizes Crestron shades to any color you desire, our stunning selection of designer keypads, or our popular signature series touch screens, our solutions blend in to any design to complete your vision to perfection.

Not only does everything look great, we make it easy to create custom scenes and schedules that orchestrate your lights, shades, music, video, security, temperature and other technology exactly to your taste. No other company compares to Crestron when it comes to delivering a personalized home automation experience that reflects your one-of-a-kind lifestyle.
