

The world's favourite lock

3109+ Digital Door Lock

Combining high security with cutting edge technology, the Yale 3109+ Digital Door Lock is a high quality security solution for the contemporary home.

Suitable for both timber and aluminium applications, the Yale 3109+ Digital Door Lock can be used with PIN code, proximity cards or key.

The world's favourite lock

VARIOUS ACCESS

Three access solutions, PIN code, proximity card or key for your convenience. 4 digit one time code for temporary access.

SMART TOUCHPAD

To prevent the PIN from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by wiping the keypad with your palm after entering the PIN.

SCRAMBLING CODE

You can add meaningless numbers before or after the PIN when there is a chance of exposing your PIN to others.

AUTOMATIC LOCKING - SELECTABLE

Automatically locks the door after checking it is properly closed. (Manual operation is also selectable)

SAFE HANDLE - SELECTABLE

When enabled, the button on the inside handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

ALARM (BREAK-IN / DAMAGE)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

LOW BATTERY AND EMERGENCY POWER

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock from outside with a standard 9V battery.

ACCESSORIES

Prox dots, aluminium strike kits and rebate kits are all available as optional accessories.
