

The Elite Keypad is a simple and robust interface into the Integrati or Concept system. Its iconic menu navigation is quick and responsive. The plain-text display is easy to read and the back-lit LCD display and back-lit keys make it a versatile solution for many organisations. Both surface and flush-mount installation options are supported.

Alarms and events may be monitored and acknowledged, areas may be armed/disarmed, doors may be unlocked/locked and much more. Four status LEDs can be used to display the armed/disarmed state of areas or for other intruder/access control/automation purposes.

The entire Integrati system may be programmed through the Elite Keypad (Macros excluded), allowing the installer to make quick and efficient changes as needed without relying on Integrati software. Multiple languages are also supported through the multi-lingual version.

Features

- May be installed as a flush-mount or surface mount unit
- Backlit rubberised keypad provides tactile feedback
- Four LEDs provide area status, door functions, alarms and other conditions via programming options
- Instant help text available anytime, at the press of a key
- Multi lingual firmware as standard (12 languages)
- Four 'arrow' keys provide quick and convenient access to options in the 'spreadsheet' style menu
- Zone inputs and auxiliary outputs provided onboard the Keypad
- Programmable panic key and duress option
- Built-in module locater buzzer

Connectivity

The Elite LCD Keypad is connected directly to the Integrati RS-485 LAN. Up to 99 Elite LCD Keypads may be installed in a system comprising a single Integrati Controller.

Specifications

Physical

Housing Dimensions:	143(H) x 89(W) x 28(D) (mm)
Installation Environment:	0° - 50°C @ 15% to 85% relative humidity (non-condensing)

Electrical

Input Voltage to PCB:	11V - 14V DC
Operational Current:	Normal - 20mA, Maximum - 45mA
Auxiliary Output Current:	100mA maximum each

System Outputs

LED Indicators:	4
Outputs (Open collector):	2
